

BABY NURSING TABLE

Some lavatories are equipped with a baby nursing table. These lavatories are marked by an associated placard.

The baby nursing table is attached to the lavatory wall panel above the toilet unit.

How to fold out the nursing table:

1. Lift and hold the latch until the nursing table is unlatched from the stop.
2. Use the latch to pull the nursing table down onto its sidewall support.

How to fold in the nursing table:

1. Fold up the nursing table upwards to the stop.
2. Push the nursing table against the stop until the latch engages with the snap.
